

Excellence in Dental Care

74 Old Oak Common Lane, East Acton, London W3 7DA

t. 020 8749 3371 www.oakwooddental.co.uk

Welcome to...

Oakwood Dental Practice is a family friendly practice offering high quality dental treatment in a comfortable and relaxing surrounding. Outstanding patient care is at the heart of everything we do. On registering with us, our highly qualified professional team will take care of your dental needs to ensure that your experience is smooth and stress-free.

We use the latest equipment to help ensure that you get the best treatment available. This includes digital x-ray technology to help in diagnosis and treatment planning. We offer the highest quality dental materials available that gives you the choice you deserve.

Our team are highly experienced and most have been with the practice over ten years. Established over 20 years ago, we have earned a reputation for excellence in dental care for you and your family. Oakwood Dental is fully registered and compliant with the Care Quality Commission (CQC).

Our mission:

To dedicate the skills, energies and resources we have to provide all patients with individual and sensitive care and promote dental health at all times.

To maintain a reputation for excellence by providing quality dental care and cosmetics in a safe, accessible and informal environment.

Trust is the foundation of the practice; we are independent, impartial and honest appreciating the diversity of all our patients.

To maintain a standard of professionalism and teamwork, and to continually strive to improve our service.

Our range of services

At Oakwood Dental Practice we offer both NHS and Private dental services. We can also help you achieve the smile you have always dreamed of with our range of cosmetic treatments.

Teeth Whitening

Everybody's teeth darken and yellow with age. Our teeth whitening treatments can help you achieve an amazing white smile. We offer custom made trays with gels for home whitening and also chairside whitening carried out in the practice.

White Fillings

Composite is a popular choice for direct fillings for its natural looking appearance when used to repair broken teeth and replace unsightly metal or discoloured fillings improving both aesthetics and function.

Porcelain Veneers

Chipped, uneven and severely discoloured teeth can be transformed by placing thin veneers of porcelain onto them. Once bonded they look beautiful and are very strong.

Crowns

Our high-grade porcelain crowns resemble natural looking teeth to protect and restore damaged teeth.

Bridges

A missing tooth can be replaced with a porcelain bridge attached carefully to adjacent teeth, avoiding the need for a denture.

Dentures

We offer premium acrylic and chrome dentures to give a natural appearance and excellent fit to replace missing teeth.

Implants & Tooth Replacement

Dental implants are a fixed option to replace missing teeth. By replacing the root of the missing tooth with an implant, it is possible to attach a crown or bridge to this. Implants feel and look just like your own teeth. Dental implants can also be used to securely fix bridges and dentures in place and this treatment is becoming increasingly popular. Implant-retained bridges and dentures are comfortable and greatly improve your ability to eat and speak with confidence.

Facial Aesthetics

Over the years nature takes its toll and facial expression lines begin to appear. We can help to reduce these signs of aging with anti-wrinkle treatments and dermal fillers.

Orthodontics

Invisalign® is the invisible way to straighten teeth using a series of custom-made, nearly undetectable aligners. It can be used to correct a variety of problems including overly crowded teeth and widely spaced teeth. The aligners are removable so you can eat and clean your teeth as normal.

Dental Hygiene

Our Dental Hygienist is a specially trained member of the team who has a very important role in your oral health. At Oakwood Dental we believe that it is important to educate patients on their oral health status and we will always find the time to discuss and create personal oral health regimes that work for patients.

Mouth Cancer Screening

Mouth cancer is a dangerous abnormal growth that can affect any part of the mouth.

Mouth cancer can appear as:

- An ulcer that fails to clear up
- A growth or swelling that has been there for more than three weeks
- A white or red patch in the mouth

At Oakwood Dental we routinely screen for mouth cancer signs and symptoms & refer to a specialist when necessary for appropriate diagnosis and treatment.

Meet our team

Our team is a highly skilled and dynamic group of dental professionals and specialists with a wealth of dental experience.

Dr Jayesh L Soneji BDS MFGDP (UK)

Dental Nurses

We also have many pleasant and well-trained nurses and experienced receptionists who will make your visit to the dentist as comfortable as possible.

Continued Professional Development

All our dentists and nurses regularly attend post-graduate courses to maintain the most up-to-date knowledge to enhance quality assurance and implement the modern concepts of treatment. It is our policy to follow the latest British Dental Association Guidelines for the prevention of cross-infection. This ensures all dental procedures are achieved under strict sterile and safe conditions.

How to find us

Opening hours

Mon - Fri 9.00am – 6.00pm
Saturday 9.00am – 1.00pm

Emergency treatment

We always try to accommodate emergency patients on the day during normal working hours and within 24 hours at other times. For out of hours emergencies please call **0208 749 3371**.

How to register

Appointments can be made by telephone, visiting the practice or completing the online form on our website - www.oakwooddental.co.uk

For the less able:

We have a ground floor surgery that has disabled access and can provide all necessary treatment.

Methods of Payments:

Upon clinical examination and discussion of treatment options, a written treatment plan will be provided for you. Treatment fees can be settled in form of cash, most credit and debit cards. In the case of long-term treatment plans, interest free finance plans can be arranged for you.
